“Scott Grover Sells Out to Brother”

Scott Grover has sold his interest in Grover Motor Co., to his brother, Don Grover, and has moved to Brigham City, Utah where he will operate a large service station. Don will be associated with his brother, Mel Grover, in the firm. Grover Motor has been operating in Townsend since 1952 when the father of the boys, the late D.M. Grover, came here from Utah and bought the garage from Earl Knapp. During the first years in Townsend, Don, Grant and

Jess Grover were all associated in the business with the others at different times. Mel is now the only one who has been continuously with the firm.

Don had been living at Brigham City, Utah until this spring when he returned to Townsend. He had operated the service station Scott is now taking over for two years.

The Scott Grover family will be missed by their many Townsend friends, especially the Boy Scouts as Scott had been active in Scout work many years. He was also quite active in other civic affairs of the community, including the IOOF Lodge. Their friends wish them success in their new venture.
